

IN THE SPECIFICATION

Please amend the paragraph spanning page 5, line 31 to page 6, line 2 as follows:

A turn around socket according to one embodiment of the present invention is shown in FIG. 7. The turn around socket includes a socket body 700 for loading a memory module 71 and a first socket conductor 701 for electrically connecting the contacts (93, Fig. 9C) of both sides of the memory module 71 by passing through the socket body 700.
